SUMMARY

Full Stack Developer experienced in Python and JavaScript based programming. I give attention to detail, am reliable, punctual and a hardworking individual who is always willing to go the extra mile. I am cooperative, and have good interpersonal relationship skills. I am very organized and have the ability to use my own discretion. I am currently seeking a job as a junior Full Stack Developer, front-end or back-end with a company that I can grow my skill with.

TECHNICAL SKILLS

React, Redux, Typescript, Python, OOP, PSQl, Javascript, HTML, Css, Bootstrap, Github, Node.Js

TECHNICAL PROJECTS

Fight Antisemitism Game - [github](#) | [Demo](#)

A Python text based style game using Tkinter designed to educate and help combat anti-semitism.

- Uses Tkinter for the GUI, creating windows, buttons, labels, and text areas to interact with the user. Utilizing Python, Postgresql, Json, and API requests
- Utilizes psycopg2 to connect to a PostgreSQL database and stores player data such as high scores etc
- The code utilizes key OOP concepts such as classes, objects, methods, encapsulation, and abstraction to structure the game's functionality.
