SUMMARY

Full Stack Developer experienced in Python and JavaScript based programming. I give attention to detail, am reliable, punctual and a hardworking individual who is always willing to go the extra mile. I am cooperative, and have good interpersonal relationship skills. I am very organized and have the ability to use my own discretion. I am currently seeking a job as a junior Full Stack Developer, front-end or back-end with a company that I can grow my skill with.

TECHNICAL SKILLS

React, Redux, Typescript, Python, PSQL, Javascript, HTML, Css, Bootstrap, Node.Js

TECHNICAL PROJECTS

Fight Antisemitism Game - [Github](#) | [AllNews](#)

AllNews, a platform that provides a balanced view of political news by sourcing articles from both CNN and Fox News

- The backend, built with Typescript, Express.js and PostgreSQL, handles fetching, storing, and rating articles.
- The frontend, developed with Typescript and Redux, displays the news articles and user interactions such as comments and ratings.
- Environment variables are configured for local development and production to ensure seamless API communication and deployment. Render.com was used for deployment
